Allowable Subject Matter

Claims 30-39 and 43-45 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a system or method for delivering a substance into tissue that includes, inter alia, a plurality of micro-perforators formed from a solid matrix material without channels or passageways comprised of either a polymer or a carbohydrate derivative that are dissolved by a solvent in the tissue to form channels for delivering a substance into the tissue in combination with a reservoir, including the solvent, that dissolves the matrix upon contact with the solvent over a time interval between a few tens of seconds and a few hours after the micro-perforators have been inserted into the patient's body.

The prior art most similar is to Lastovich (USPN 6,440,096), Melone (USPN 3,596,660) and Park (2002/0082543). Lastovich teaches perforators with a central passage that contains the drug to be dissolved. See 7:13-24. Conversely, the instant claims recite a solid matrix material without channels or passageways. Additionally, Melone teaches a coating of drug on a perforator but does not teach a reservoir containing a solvent that dissolves the matrix material upon contact over a time period of a few tens of seconds and a few hours. Park teaches micro-perforators that contain a drug and degrade within the body. Park also teaches a reservoir in addition to the micro-perforators. However, Park does not teach a reservoir containing a solvent that dissolves the matrix material upon contact over a time period of a few tens of seconds and a few hours. None of these references anticipate or render obvious the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571/2724970. The examiner can normally be reached on Monday - Friday.
